The patent term adjustment to date is 155 days. If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the term adjustment will be 155 days.

If a continued prosecution application (CPA) was filed in the above-identified application, the filing date that determines patent term adjustment is the filing date of the most recent CPA.

Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

DETAILED ACTION

Priority

1. Receipt of the claim for foreign priority is acknowledged.

Election/Restrictions

2. Claims 8-14 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 7.
3. This application is in condition for allowance except for the non-canceled claims 8-14 to an invention non-elected with traverse in Paper No. 7. Accordingly, these claims have been canceled in the Examiner's Amendment below.

Allowable Subject Matter

4. Claims 1-7 are allowed.
5. The following is an examiner's statement of reasons for allowance:
6. U.S. Patent 6,520,819 to Sakaguchi discloses a method for manufacturing an organic EL display panel, which includes forming partition walls (11) by first electrically charging the transfer layer (4) and then developing the latent image (9) by using a developing agent (10), which can contain magnetic powder to more accurately control the partitions' dimensions¹.

¹Sakaguchi, column 9, lines 23-29.

#8/B andlt.

B

7. Therefore, Sakaguchi anticipates Applicant's Claim 1 limitations of an element formation step and a selective magnetization step. However, Sakaguchi does not provide motivation or discloses transferring the selected display elements onto a mounting board.

8. The prior art of record fails to disclose or motivate forming an image display comprising the steps of an element formation step, a selective magnetization step, and a mounting step, as recited in claim 1.

9. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Drawings

10. The drawings filed on August 13, 2001 are acceptable subject to correction of the informalities indicated below. In order to avoid abandonment of this application, correction is required in reply to the Office action. The correction will not be held in abeyance.

11. Figures 7a-8e should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g).

Examiner's Amendment

12. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by

37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

13. Authorization for this examiner's amendment was given in a telephone interview with David Metzger on May 22, 2003.

14. The application has been amended as follows:

- Cancel claims 8-14.
- Change the abstract to read as follows:

B --A method of producing an image display unit with improved handling of small LED pellets. The method includes an element formation step, a selective magnetization step, and a mounting step. The selective magnetization step and mounting step improves LED pellet placement as opposed to the typical mounting step, which includes using dielectric pads and conductive paste.--
